Commentary

Brockenhurst College does not have a significant gender pay gap compared to available benchmarks. We conclude that the College's employee recruitment, retention and progression policies and practices are operating largely effectively. It is recognised that a higher proportion of our part-time positions are held by female employees. Females are also comparatively under-represented in technical roles such as IT Support services. The College is committed to being a fair and inclusive organisation and to reducing its gender pay gap. We will continue to review and seek to improve further by reflecting our positive commitment on our careers website, in our recruitment practices and through employee engagement policies and frameworks as these are updated.
